The Rockfish
400 6th Street
Annapolis, MD 21403

Cost Info:
Members Paid in Advance \$10

Non-Members Paid in Advance \$20

Admission at the door as available:
Members \$15;
Non-Members \$25

Trash-to-Cash

As part of the CRTC's Green Market's Committee's year-long series highlighting ways small businesses can and are profiting (increasing revenue and/or decreasing costs) by going green, we present the *Trash-to-Cash* Roundtable event focusing on how our businesses' waste stream, if managed properly, can allow us to be environmentally-friendly while also turning into a profit center.

This event, like all events in this series, presents a case study of actual businesses who are Greener in the bank as a result of going Green through effective recycling of their waste — everything from standard office paper & ink, to food waste and industrial waste. The Roundtable discussions will bring together businesses that can profit from these ideas in a forum that will encourage connections to help implement these Green opportunities.

Join us as we discuss how small business can "Make Green by Going Green".

Who Should Attend?

Green Businesses	Small Businesses Going "Green"
Tech Entrepreneurs	Office Managers
Building Managers/Landlords	Operations Managers
Landfill Operators	Waste Management Officials
Recyclers	Restaurant Owners, Managers
Government Representatives	Food Service Managers
